EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney J. Mark Wilkinson on July 20, 2005.

Accordingly, **claims 2 and 28 are canceled**, and claims 1 and 25 read as follows:

Claim 1: A method of clinical imaging comprising:

exciting water-exchangeable spins in oxygen-bearable molecules in a region-of-interest (ROI) having a change in oxygen status;

irradiating the ROI with exchangeable resonances and wherein the

exchangeable resonances are within a resonance in a proton spectrum of one of deoxy-hemoglobin and dexoy-myoglobin;

determining proton transfer within the ROI from exchangeable protons within water; and determining changes in oxygen levels across the ROI.

Claim 25: A system of oxygen content determination comprising:

means for exciting spins limited to targeted oxygen-carrier molecules;

means for determining a proton transfer from the targeted oxygen-carrier molecules to imageable molecules;

means for determining a concentration of at least one of deoxy-hemoglobin and deoxy-myoglobin in the ROI; and

means for determining oxygenation of the targeted oxygen-carrier molecules from a reconstructed image of the imageable molecules.

2. **Claim 3** depends on claim 1, and not on claim 2.
3. The pending claims in the application after Examiner's amendment are 1, 3-27 and 29-30, which are in allowable condition.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

Claims 1, 3-9 are allowed, as the prior art of record does not teach or suggest a method of clinical imaging, including steps of detecting proton transfer within the ROI from exchangeable protons within water; and determining changes in oxygen levels across the ROI, in combination with the remaining limitations of the claims.

Claims 25-27, 29 and 30 are allowed, as the prior art of record does not teach or suggest a system of oxygen content determination, including means for determining oxygenation of the targeted oxygen-carrier molecules from a reconstructed image of the imageable molecules, in combination with the limitations of the remaining claims.

Claims 10-24 have been allowed, the reason(s) of allowance was provided in the Office action dated April 1, 2005.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
